Summary

Motivated Front-End Developer with hands-on experience building responsive web applications using React.js, JavaScript, HTML, and CSS. Passionate about creating user-friendly interfaces and continuously improving problem-solving and teamwork skills through real-world projects.

Open to internships and training opportunities.

Skills:

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6), React.js, Bootstrap, Tailwind CSS
- **Web Design:** Responsive Web Design, CSS Flexbox, CSS Grid
- **Programming Languages:** Python, Java, C++
- **Concepts:** Object-Oriented Programming (OOP), DOM Manipulation, Component-Based Architecture
- **Tools & Platforms:** Git, GitHub, VS Code
- **Soft Skills:** Problem-Solving, Teamwork, Communication, Attention to Detail, Time Management, Fast Learning

Project:

- **Tabeebak – Healthcare Web Application**— <https://tabeebak-wqlp.vercel.app/>
Developed a responsive healthcare web application using React.js to simplify doctor appointment booking and patient management. Implemented modern UI components, routing, reusable React components, and API integration concepts to enhance user experience and application performance. Focused on clean frontend architecture, responsive design, and interactive user interfaces.
- **Admin Dashboard – Management & Analytics**— <https://admintabeebak.vercel.app/login>
Developed a responsive admin dashboard web application using React.js for managing and monitoring system data efficiently. Implemented dynamic dashboards, reusable components, navigation, and modern UI/UX principles to improve usability and performance. Focused on frontend architecture, state management concepts, and responsive design for different screen sizes.
- **Premium Developer Portfolio** — <https://github.com/Malak175/premium-portfolio.git>
Developed a modern and responsive developer portfolio using React.js and Tailwind CSS to showcase projects, technical skills, and achievements. Implemented reusable components, smooth animations, responsive layouts, and interactive UI elements to create a professional user experience while emphasizing clean frontend architecture and performance optimization.

Education:

Bachelor of Science (B.Sc.) in Information Technology

Egyptian E-Learning University (EELU), Alexandria, Egypt

Graduated: 2026

Graduation Project: Tabeebak – AI-Powered Healthcare Management System | Grade: A+

Certifications:

- Python Programming – Egyptian E-Learning University (Expected Sep 2025, 40 hours)
- Artificial Intelligence – Egyptian E-Learning University (Expected Sep 2025)
- CCNA (Introduction to Networks, Switching, Routing, and Wireless Essentials, Enterprise Networking) – Cisco Networking Academy (May 2024–Dec 2024) - Gained skills in network configuration, automation with Python, and problem-solving.
- Software Development – React Frontend Web Developer- Digital Egypt Pioneers Initiative (DEPI) (Expected Dec 2025) - Completed training in React.js frontend development, including responsive UI design, component-based architecture, and modern web development fundamentals.

Languages:

Arabic: Native

English: Proficient (written and verbal, technical communication)
